

**AMERICANS FOR
FARMERS & FAMILIES**
STRONG FARMING MEANS JOBS

NAFTA KEEPS AMERICA FIRST

The North American Free Trade Agreement (NAFTA) has greatly benefited the United States through strong job growth, higher wages and low consumer prices, and has particularly enabled a booming agriculture and energy export economy that has upheld America's independence. But its livelihood is at stake.

Will you join our cause and help us keep NAFTA working for the American farmer and family?

Yes, I want to keep American farms strong and families prosperous!

By signing up, your organization will be listed as a member on our website.

Please send this completed form to info@americansforfarmersandfamilies.com

As a coalition member you will:

Oppose the U.S.' complete withdrawal from NAFTA in favor of a more modernized agreement fit for the 21st Century.

Work to educate Congress, the Trump administration, media and the public about the benefits of NAFTA on farmers and families.

Sign onto letters and additional campaign materials (unless coalition member pro-actively opts-out).
