**AFF RELEASES STATEMENT IN ADVANCE OF STATE OF
THE UNION ADDRESS**

Washington, D.C. – Americans for Farmers and Families – a coalition of growers, producers, suppliers, transporters, retailers and consumers dedicated to preserving and modernizing the North American Free Trade Agreement (NAFTA) – issued the following statement in advance of President Donald J. Trump’s first State of the Union Address:

“Since its implementation more than two decades ago, the North American Free Trade Agreement (NAFTA) has greatly benefited American agricultural workers and rural communities resulting in stronger job growth, higher wages and lower consumer prices. NAFTA helps support more than 43 million jobs and more than \$127 billion in annual economic activity,” said Joshua Baca, spokesperson, Americans for Farmers and Families (AFF). “We believe efforts to improve NAFTA for the 21st Century ensuring fair and balanced trade with our partners to the north and south should continue to benefit American exporters and consumers, and help create and grow American jobs.”
